

About the Institution:

Adhiyamaan College of Engineering is one of the educational institutions developed by Adhiyamaan Educational & Research Institution - trust, which was started in the year 1987-1988 to cater to the needs of the nation in the development of technocrats and to provide facilities for educating and training men and women to meet the entrepreneurial and management needs. The management has created adequate infrastructural facilities and sufficient funds and is keen on developing the institution for higher education. The Institution has been conferred with Autonomous Status since 2007.

About the Department:

The Department of Electronics and Instrumentation Engineering was started in the year 2007. The department has well equipped laboratories with state-of-the art technology like SCADA in MODBUS network, HART based transmitters, PLC based real time system, PC based Data Acquisition system, Labview based Control Loops etc. There are additional facilities available to train the students in the area of PLC programming, SCADA development Labview based projects and Embedded System in line with the expectations of Industries.

About the Program

The primary objective of the Faculty Development Training Programme (FDTP) is to provide opportunity for young faculty members from Engineering Colleges affiliated to Anna University to enrich their basic and fundamental knowledge in the Analog and Digital communication area". This will equip the college teachers to teach the subject better and also enable

them to offer innovative projects in this area. This program will cover the following topics as

- Fundamentals of analog communication,
- Digital communication
- Data and pulse communication.
- Different types of source and error control coding
- GSM
- CDMA
- Cellular Concept and Frequency Reuse
- Channel Assignment and Multiple Access Schemes
- Satellite Communication and Bluetooth.
